Sterlite Industries (India) Limited  
Results for the First Quarter Ended 30 June 2013

---

Revenues and EBITDA were lower primarily on account of a temporary closure of the Tuticorin copper smelter, which was partially offset by higher power generation at the Jharsuguda 2,400 MW power plant and higher production at Zinc India. Temporary closure of the Tuticorin smelter negatively impacted EBITDA by Rs. 180 crore.

Attributable PAT and Basic EPS were impacted by lower EBITDA and higher losses at associate. Higher interest costs on borrowings was largely offset by increase in other income.

**Merger of Sterlite and Sesa Goa Limited and Vedanta Group Consolidation**

The proposed Merger of Sterlite and Sesa Goa Limited and Vedanta Group Consolidation has received the approval of the High Court of Madras on July 25, 2013 and the approval of the High Court of Bombay at Goa on April 3, 2013.

One of the shareholders of Sesa Goa has filed an appeal against the order passed by the High Court of Bombay at Goa before the Division Bench of the same court. The hearings before the Division Bench have been completed and the order is awaited.

1. Including captive consumption of 1,644 tonnes in Q1 FY 2014 vs. 1,641 tonnes in Q1 FY 2013 and 1,777 tonnes in Q4 FY 2013.
2. Excluding captive consumption of 8.8 tonnes in Q1 FY 2014 vs. 8.6 tonnes in Q1 FY 2013 and 9.2 tonnes in Q4 FY 2013.
3. Including zinc concentrate sale of nil in Q1 FY 2014 vs. nil in Q1 FY 2013 and 61,097 tonnes metal in concentrate in Q4 FY 2013.

During Q1, mined metal production was 27% higher than the corresponding prior quarter. The increase in production was in line with our plan to deliver 1 million tonne mined metal production for the year.

Integrated production of refined zinc was 10% higher, due to higher smelter utilization. Integrated production of refined lead was in line with the corresponding prior quarter. Integrated saleable silver production was 9% higher driven by higher volumes from Sindesar Khurd and Zawar mines.

Revenues were higher by 9% on account of higher sales volume and depreciation of Indian Rupee, partially offset by lower metal prices.

The zinc cost of production (COP) without royalty was 2% higher in Rupee terms and 1% lower in US Dollar terms. The increase in Rupee COP was primarily due to lower sulphuric acid credits and higher excavation costs, partially offset by lower coal prices, lower specific coal consumption and the benefits of higher volumes.

EBITDA was 7% higher on account of higher volume partially offset by higher operating costs. PAT for the quarter was 6% higher at Rs. 1,630 Crore.

Zinc-Lead Metal in Concentrate (MIC) production was lower on account of disruptions in production caused by accidents at Lisheen and BMM.

EBITDA was 12% lower on account of lower volumes, lower metal prices and marginally higher COP.

### Copper – India / Australia Business

	Q1			Q4
	FY2014	FY2013	% change YoY	FY2013
<b>Production (in '000 tonnes, or as stated)</b>

Copper LME Price (\$/MT)	7,148	7,869	(9%)	7,931

NM = Not Meaningful.

During Q1, mined metal production at Australia was 13% lower due to lower grades. Copper cathode production was lower due to a temporary closure of the Tuticorin smelter for most of the quarter.

Sterlite Industries (India) Limited  
Results for the First Quarter Ended 30 June 2013

EBITDA was lower due to fixed expenses of the Tuticorin smelter partially offset by gains on sale of surplus power from the first 80 MW unit of Tuticorin power plant. Contribution from Australian operations was affected by lower sales volume, lower LME and higher COP.

Following the Tamil Nadu Pollution Control Board's (TNPCB) order for closure of the Tuticorin copper smelter on March 29, 2013, the National Green Tribunal (NGT) after hearing company's appeal, passed an interim order on May 31, 2013 conditionally allowing the smelter to recommence operations, and the plant restarted on June 23, 2013. On July 15, 2013, an expert committee confirmed that the plant meets the prescribed standards, and the NGT in its order of even date took cognizance of the findings of the expert committee and observed that the company "is neither an existing pollutant nor is a threat of future pollution (not violating prescribed standards) resulting in health hazards", and declined to modify its earlier interim order dated 31st May, 2013, enabling the plant to continue to operate. Separately, the TNPCB has also filed an appeal against the NGT's earlier interim order before the Supreme Court.

#### Aluminium Business - BALCO

	Q1			Q4
	FY2014	FY2013	% change YoY	FY2013
<b>Production (in '000 tonnes, or as stated)</b>				
Aluminium	61	60	1%	62
<b>Financials (In Rs. crore, except as stated)</b>				
Revenue	745	780	(5%)	954
EBITDA	28	57	(51%)	85
PAT	(63)	(7)	—	20
CoP (\$/MT)	1,934	1,910	1%	1,930
CoP (Rs./MT)	108,233	103,542	5%	104,532
Aluminum LME Price (\$/MT)	1,835	1,978	(7%)	2,003

During Q1, the Korba-II aluminium smelter continued to operate at its rated capacity.

Revenues were 5% lower on account of lower sales volume and fall in metal prices, partially offset by the depreciation of Indian Rupee.

Net sales realization over LME was \$ 445 per tonne during the quarter.

Aluminium COP was higher primarily on account of further tapering of coal linkage as per the Coal Block policy and higher operating cost of captive power plant due to maintenance shutdown of one of the units of 540 MW Captive Power Plant (CPP). The increase in aluminium COP on account of further coal tapering was Rs. 3,900 per tonne of aluminium in Q1 FY2014 as compared to Q1 FY2013.

The BALCO 1,200MW captive power plant is awaiting its consent to operate. We expect to tap first metal at the 325 ktpa BALCO-III aluminium smelter in Q3 FY2014. Having obtained both stages of forest clearance for the BALCO coal block, we are working on obtaining other approvals which are taking longer than expected, and we expect to commence mining in Q1 FY2015.

<b>Production (in '000 tonnes, or as stated)</b>				
Alumina – Lanjigarh	—	218	—	—

Aluminium CoP (Rs./MT)	93,734	100,020	(6%)	97,496
Aluminium LME Price (\$/MT)	1,835	1,978	(7%)	2,003

Aluminium production was 8% higher during the quarter. The Jharsuguda-I smelter operated at 7% above its rated capacity, with significant improvements in specific power consumption, throughput and other operational parameters resulting in a COP lower than the corresponding prior quarter as well as Q4 FY2013. This was achieved despite running the smelter with third-party alumina feed as operations of the Lanjigarh alumina refinery were temporarily suspended. The refinery has subsequently recommenced its operations in July.

EBITDA was lower primarily on account of the fixed costs of the Lanjigarh refinery during the quarter and lower Aluminium LME, partially offset by higher volumes and lower COP.

Net sales realization over LME was \$ 320 per tonne during the quarter.

PAT was lower by Rs. 316 crore primarily on account of higher interest cost. Interest cost was higher due to cessation of interest capitalization pertaining to the Jharsuguda-II smelter on account of delay in its commissioning, in compliance with the relevant accounting standard.

**Status of Investment in Vedanta Aluminium Limited as at 30 June 2013**

Investment in VAL (Rs. crore)	Sterlite	Vedanta	External	Total
Equity	563	1,391	—	1,954
Preference Shares	3,000	—	—	3,000
Quasi Equity / Debt	13,895	571	13,065	27,530

Corporate Guarantees	2,287	22,602	—	24,889

In view of the impending merger, the company borrowed Rs. 5,000 crore externally and lent it to VAL, with an objective of optimizing the overall cost of borrowings for VAL. This has resulted in retiring a part of the higher cost project finance debt at VAL.

1. Includes production under trial run of 202 MU in Q1 FY2013.

Power sales during the quarter were 20% higher on account of higher power generation from Jharsuguda 2,400MW plant. The plant operated at PLF of 54% for all four units during the quarter as compared with 50% for three units during the corresponding prior period.

Power sales volumes at the BALCO 270 MW plant were lower due to diversion of 204 million units of power to the Korba-II smelter as one unit of BALCO 540 MW CPP was under maintenance shutdown.

Average power realization increased to Rs. 3.49 due to higher sales volume from open access. The power generation cost at SEL during the quarter was Rs. 2.21 per unit as compared with Rs. 2.14 per unit in corresponding prior quarter.

EBITDA for the quarter was 22% higher, primarily on account of higher power generation at Jharsuguda 2,400MW plant.

The first unit of the 1,980MW Talwandi Sabo power project is expected to be synchronized in Q3 FY2014.

### Cash, Cash Equivalents and Liquid Investment

As at 30 June 2013, the company has consolidated cash, cash equivalents and liquid investments of Rs. 25,890 crore, out of which Rs. 15,369 crore was invested in debt mutual funds, Rs. 2,217 crore in bonds, and Rs. 8,304 crore in bank deposits. The company continues to follow a conservative investment policy and invests in high quality debt instruments with the mutual funds, bonds and fixed deposits with banks.

**Note:** Figures in previous periods have been regrouped or restated, wherever necessary to make them comparable to current period.

Additional intra segment information of revenues and results for the Zinc, Lead and Silver segment have been provided to enhance understanding of segment business.

**Notes:-**

- 1 The above results for the quarter ended June 30, 2013 have been reviewed by Audit Committee at its meeting. The Board of Directors at its meeting held on July 25, 2013 approved the above results and its release. The statutory auditors of the Company have conducted limited review of these results.
- 2 Arising from the announcement of the Institute of Chartered Accountants of India (ICAI) on March 29, 2008 the Company had adopted Accounting Standard (AS) 30 – Financial Instruments: Recognition and Measurement effective from accounting year ended March 31, 2008 along with consequential revisions to other Accounting Standards.
- 3 In an appeal filed by the Company against the closure order of the Tuticorin copper smelter by Tamil Nadu Pollution Control Board (“TNPCB”), the National Green Tribunal (NGT) passed an interim order on May 31, 2013 allowing the copper smelter to recommence operations and appointed an Expert Committee to submit a report on the plant operations. Post this interim order, the plant recommenced operations on June 23, 2013 and therefore the plant remained closed for a major duration of the quarter impacting the revenue and profits of the copper segment. Subsequently, on July 15, 2013, the NGT permitted the Company to continue to operate the copper smelter based on the report of the Expert Committee and has reserved its final order. Separately, TNPCB has filed an appeal against the interim order passed by the NGT before the Supreme Court.
- 4 As a part of the overall Vedanta Group consolidation and simplification exercise, the Board of Directors approved the Scheme of Amalgamation of the Company with Sesa Goa Limited with the Appointed Date as April 1, 2011, subject to requisite approvals from various statutory authorities and the Jurisdictional Hon’ble High Courts. Post approval by the shareholders of the respective companies, petitions were filed in the respective Jurisdictional High Courts. The High Court of Bombay at Goa approved the Amalgamation and Reorganisation Scheme by an order dated April 3, 2013, which has been subsequently appealed by a shareholder. The hearings in the appeal are over and order is awaited. The High Court of Madras has also approved the Scheme of Arrangement (Merger) of the Company with Sesa Goa Limited on July 25, 2013.
- 5 (a) In respect of the Niyamgiri mining lease of Vedanta Aluminium Limited (“VAL”), the Hon’ble Supreme Court in its order dated April 18, 2013 directed the Government of Orissa to place any unresolved issues and claims of the local communities under the Forest Right Act and rules before the Gram Sabha. The Government of Orissa has initiated the process of conducting Gram Sabha in 12 villages, which are scheduled to be completed by the August 19, 2013. On conclusion of the proceedings before the Gram Sabha, the finding of these claims will be communicated to the Ministry of Environment and Forests (“MOEF”) through the Government of Orissa. The MOEF, within two months thereafter, shall take a final decision for grant of stage II forest clearance for the Niyamgiri mining project of Orissa Mining Corporation (“OMC”).  
(b) With regard to the Expansion Project of VAL at Lanjigarh, pursuant to the Hon’ble Orissa High Court’s finding in VAL’s Review Petition that the clarification issued by MOEF on November 16, 2010 with regard to grant of environmental clearance lacked statutory authority, VAL’s fresh application for environmental clearance is under process. MOEF has sought certain clarification from the Govt. of Orissa based on which it will advise on the public hearing for the proposed expansion project. In the meantime, VAL has put the expansion activity on hold.  
On July 11, 2013, VAL has started the existing refinery operations, which were temporarily suspended due to paucity of bauxite. The above matters are critical to the planned operations of VAL. The management expects that with the timely support of relevant authorities adequate quantity of bauxite will be secured from Orissa / other States to continue its operations and that the above issues will be satisfactorily resolved. The management of the Company has evaluated and considered good, its loans granted and investments made in VAL aggregating to Rs 17,458 Crore.  
(c) The Company has, over a period invested Rs 3,563 Crore in VAL, by way of Equity Shares and Redeemable Cumulative Preference Shares. The Company has accounted for its share of losses of its associate, even though the carrying amount of the equity investment has reduced to Nil. The additional losses (including share of hedging reserves) amounting to Rs 261 Crore for the quarter ended June 30, 2013 has been recognised in the results.
- 6 The Company has opted to publish only Consolidated Financial results. The standalone results of the Company will be available on Company’s website www.sterlite-industries.com. Additional information on standalone basis are as follows:

**Notes:-**

- 1 The above results for the quarter ended June 30, 2013 have been reviewed by Audit Committee at its meeting. The Board of Directors at its meeting held on July 25, 2013 approved the above results and its release. The statutory auditors of the Company have conducted limited review of these results.
- 2 Arising from the announcement of the Institute of Chartered Accountants of India (ICAI) on March 29, 2008 the Company had adopted Accounting Standard (AS) 30 – Financial Instruments: Recognition and Measurement effective from accounting year ended March 31, 2008 along with consequential revisions to other Accounting Standards.
- 3 In an appeal filed by the Company against the closure order of the Tuticorin copper smelter by Tamil Nadu Pollution Control Board (“TNPCB”), the National Green Tribunal (NGT) passed an interim order on May 31, 2013 allowing the copper smelter to recommence operations and appointed an Expert Committee to submit a report on the plant operations. Post this interim order, the plant recommenced operations on June 23, 2013 and therefore the plant remained closed for a major duration of the quarter impacting the revenue and profits of the copper segment. Subsequently, on July 15, 2013, the NGT permitted the Company to continue to operate the copper smelter based on the report of the Expert Committee and has reserved its final order. Separately, TNPCB has filed an appeal against the interim order passed by the NGT before the Supreme Court.
- 4 As a part of the overall Vedanta Group consolidation and simplification exercise, the Board of Directors approved the Scheme of Amalgamation of the Company with Sesa Goa Limited with the Appointed Date as April 1, 2011, subject to requisite approvals from various statutory authorities and the Jurisdictional Hon’ble High Courts. Post approval by the shareholders of the respective companies, petitions were filed in the respective Jurisdictional High Courts. The High Court of Bombay at Goa approved the Amalgamation and Reorganisation Scheme by an order dated April 3, 2013, which has been subsequently appealed by a shareholder. The hearings in the appeal are over and order is awaited. The High Court of Madras has also approved the Scheme of Arrangement (Merger) of the Company with Sesa Goa Limited on July 25, 2013.
- 5 (a) In respect of the Niyamgiri mining lease of Vedanta Aluminium Limited (“VAL”), the Hon’ble Supreme Court in its order dated April 18, 2013 directed the Government of Orissa to place any unresolved issues and claims of the local communities under the Forest Right Act and rules before the Gram Sabha. The Government of Orissa has initiated the process of conducting Gram Sabha in 12 villages, which are scheduled to be completed by the August 19, 2013. On conclusion of the proceedings before the Gram Sabha, the finding of these claims will be communicated to the Ministry of Environment and Forests (“MOEF”) through the Government of Orissa. The MOEF, within two months thereafter, shall take a final decision for grant of stage II forest clearance for the Niyamgiri mining project of Orissa Mining Corporation (“OMC”).  
(b) With regard to the Expansion Project of VAL at Lanjigarh, pursuant to the Hon’ble Orissa High Court’s finding in VAL’s Review Petition that the clarification issued by MOEF on November 16, 2010 with regard to grant of environmental clearance lacked statutory authority, VAL’s fresh application for environmental clearance is under process. MOEF has sought certain clarification from the Govt. of Orissa based on which it will advise on the public hearing for the proposed expansion project. In the meantime, VAL has put the expansion activity on hold.  
On July 11, 2013, VAL has started the existing refinery operations, which were temporarily suspended due to paucity of bauxite. The above matters are critical to the planned operations of VAL. The management expects that with the timely support of relevant authorities adequate quantity of bauxite will be secured from Orissa / other States to continue its operations and that the above issues will be satisfactorily resolved. The management of the Company has evaluated and considered good, its loans granted and investments made in VAL aggregating to Rs 16,624 Crore.
- 6 The figures in respect of the results for preceding quarter ended March 31, 2013 are the balancing figures between audited figures in respect of the full financial year ended March 31, 2013 and published year to date figures upto the third quarter ended December 31, 2012, in the financial year ended March 31, 2013. Previous Period / Year figures have been regrouped / rearranged wherever necessary.
